Winter Wonderland

The Zona family spent the day at Winter Park yesterday. They had a real cool time. You can play with the facts below and use the grid to figure out how each of them spent their time.

1. Look at the grid. Notice that there are four family members and 4 different activities. Each person did one activity.
2. Anthony is the ice skater's dad. This means that Anthony is not the _____. Place an X in the Anthony ice skater box.
3. Beth is mother to the ice skater and the sledder. This statements tells us that Beth was not the _____ or the _____. Place an X in those boxes. Now you know that Beth did one of these two activities: _____ or _____.
4. Josh's and Beth's activities required hills. Think about this. Which two activities required hills? Answer: _____ and _____. We already know that Beth did not go sledding so Beth must have been the one to go _____. Now you can place a star in the box that correlates to Beth and skiing. This also tells you that Beth did not build a snowman so you may place an X in that box. Also, if you know that Beth went skiing then you may put an X in the skiing boxes of Josh, Damian, and Anthony.
5. Now, back to the last clue...if Josh's activity also required a hill then Josh must have done what? _____. Now, place a star or a smiley face in that box. This also means that Josh didn't build a snowman or go ice skating. You should now be able to finish the puzzle on your own. Have fun and stay cool!

			Skiing	Snowman	Ice Skating	Sledding
						
			Beth	X	X	X
			Josh	X	X	★
			Damien	X	★	X
			Anthony	X	★	X
