

What is a Child Study Team?

The purpose of the Child Study Team is to design a support system for students having difficulty in the regular classroom. The CST is a group formed within the school to further examine a student's academic, behavioral and social-emotional progress. The CST can propose interventions for the student. The team usually consists of the teacher, principal, counselor, school psychologist, and support personnel from the school. The student and parent are also a part of the team.
